Restful API

## ABOUT ME

A passionate programmer with over 3+ years of experience in Web Design and Development, adept at creating innovative and user-friendly web solutions. Excited to contribute my skills and expertise to a dynamic team as a Web Developer.

## WORK EXPERIENCE

○ May 2019- July 2019

Data Focus Co.,Ltd

Internship Web Developer

- Studied a modern JavaScript library, specifically ReactJS.
- Developed a web-based admin user dashboard for a real-time customer rating analysis system using ReactJS.
- Explored the Go programming language and gained proficiency in it.
- Built a REST API utilizing Go.
- Successfully connected the admin dashboard with an existing mobile application.

○ 2020 Dec - 2023 Oct

AndFun Yangon Co.,Ltd

Web Developer

- Debugged and optimized legacy systems in overseas projects, specializing in high-compliance Japanese software with a focus on precision and scalability.
- Developed and enhanced applications by implementing new features and refining existing functionality to meet evolving business and client requirements.
- Collaborated cross-functionally with global teams and stakeholders to align technical solutions with project goals, ensuring on-time and high-quality delivery.
- Ensured robustness by conducting unit and integration testing for mobile applications and RESTful APIs, improving reliability and performance.

2023 Sep - 2024 August

Otechnique Myanmar Co.,Ltd

## Web Development Instructor | Bootcamp Program

- Delivered hands-on training in modern web development (HTML, CSS, JavaScript, and frameworks) to students in an intensive bootcamp setting, ensuring practical, industry-relevant skill acquisition.
- Designed and structured comprehensive course curricula, including project-based learning modules, assessments, and real-world applications to maximize student engagement and outcomes.
- Collaborated with fellow instructors and program organizers to align teaching methodologies, resolve challenges, and continuously improve course content and delivery.
- Provided mentorship and feedback to students, fostering a supportive learning environment and guiding them toward successful career transitions in tech.

2025 May - Current

Yolo Digital Marketing Agency Co.,Ltd

## Senior Web Developer

- Designed and developed a cargo management system for express car gate operations, including cargo receiving, delivery tracking, and payment handling.
- Built and maintained scalable web applications using Laravel 12 (Repository Pattern, Livewire, Yajra DataTables, Bootstrap) for backend and React with Expo for hybrid mobile applications.
- Implemented dynamic form components using Livewire with real-time updates.
- Integrated payment gateways (KBZ Pay, KPay, etc.) with secure return and notification URLs to support seamless transactions.
- Deployed and optimized REST APIs for mobile and web client applications.
- Resolved production issues including route conflicts, SQL query optimization, date formatting, and PDF generation for Myanmar localization.
- Collaborated with cross-functional teams to deliver user-friendly UI/UX aligned with business requirements.
- Ensured security, performance, and maintainability by applying best coding practices and database optimization.
